

# Shoring Pressure Pumps

## ST 312

Gas powered hydraulic shoring pressure pump, it's a SHORE-Thing!

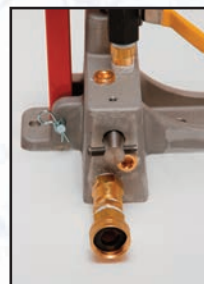

Designed for use with bio-degradable anti-freeze the ST-312 offers a 20 gallon tank reservoir, a pressure adjusting valve up to 2000 PSI with bypass relief, and NO flat polyurethane tires.

Pneumatic option available.

Manually operated test pumps, designed for testing small diameter lines in areas such as: landscaping, plumbing, and residential. A unique dual checkvalve system eliminates water bleed-back during test, greatly reducing operators labor and fatigue.

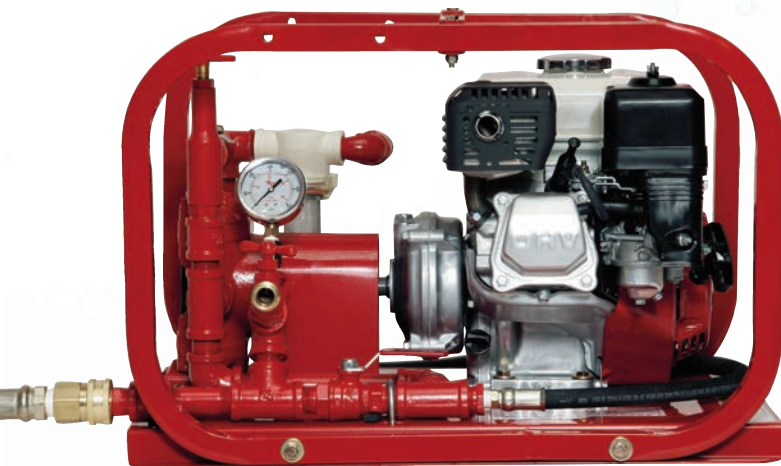

The series offers three pressure ranges of 500, 1000, or 1500 PSI. Reservoir tank option available.

## Manual Test Pumps

## Piston & Roller Series

RICE Hydro offers a line of piston or roller pump style hydrostatic test pumps. These are mid-volume, low pressure units designed for testing small diameter water lines, landscaping, plumbing and irrigation type environments. Available with flow rates up to 10 GPM, and pressures up to 450 PSI.
